EDUCATION

PhD in Political and Social Sciences

Universitat Pompeu Fabra & Institut Barcelona d'Estudis Internacionals (IBEI)

2024–Present

Barcelona, Spain

Dissertation: The Contestation and Political Effects of Technological Change

Supervisor: Aina Gallego

FI (Joan Oró) Predoctoral Fellowship Recipient

Master of Research in Political Science

Universitat Pompeu Fabra

2023–2024

Barcelona, Spain

GPA: 9.27 / 10.00. Supervisors: Toni Rodon, Aina Gallego

M.Sc. in Economics

Barcelona School of Economics

2019–2020

Barcelona, Spain

B.Sc. in Economics

Clemson University

2015–2018

Clemson, SC, USA

Graduated Cum Laude (3.71 / 4.00)

RESEARCH APPOINTMENTS AND AFFILIATIONS

Visiting Researcher, University of Southern California

Jun–Aug 2026

Host: Valentina González-Rostani, Department of Political Science and International Relations

Research Team Member, OpenAI Economic Research Exchange

Aug 2026–Present

Project: *Collective Bargaining, Business AI Use, and Worker Adjustment under Generative AI* (with Valentina González-Rostani and Paolo Agnolin)

Visiting Researcher, Bocconi University

Forthcoming

Host: Piero Stanig, Department of Social and Political Sciences; three-month research stay

RESEARCH

Fields: Political Economy, Technological Change, Automation, AI and Politics, Computational Social Science

Working Papers

- Mid-Century Modern: Analyzing the Electoral Effects of Technological Change from the Post-War U.S. to Now. (*Presented at EPSA 2025 and EGN 2026*)
 - Net automation/augmentation exposure across U.S. commuting zones (1952–2024) strongly predicts anti-incumbent voting in the Post-war era but collapses to zero in the modern period despite continued displacement
 - Develops a political translation framework; uses LLM-based classification of party platforms to test observability and attribution channels
- When Does Lobbying Shape AI Legislation? Evidence from the U.S. and EU. In progress.
 - Tracks lobbying around specific provisions across the legislative calendar to identify when advocacy is associated with changes in legislative text
- Through the Ad Glass: AI Exposure, Labor Markets, and Political Behavior in Switzerland (*with Thomas Kurer*). In progress. Lead author.
 - Builds a multi-stage NLP pipeline over 14.7M Swiss job ads: LLM extraction with hand-validated evaluation, semantic similarity matching (BGE/FAISS) to O*NET tasks, producing firm-occupation-year AI exposure measures

- Links to Swiss Household Panel via ISCO codes and anonymized firm IDs to estimate effects on voting, economic outcomes, and political beliefs

Policy Reports

- Comprehensive Economic Development Strategy – Walker River Corridor (2022). Approved and implemented by US EDA.
- Comprehensive Economic Development Strategy – County of Monterey (2021). Approved and implemented by US EDA.
- California Green Innovation Index 2020 (2021) and 2021 (2022). Annual reports on the green economy in California.

CONFERENCES AND WORKSHOPS

- **OpenAI AGI Economics Conference**, September 2026 (upcoming)
- **European Graduate Network for Political Economy (EGN)**, Florence, March 2026
- **European Political Science Association (EPSA) Annual Conference**, Madrid, June 2025
- **AI & Politics: Public Opinion, Political Economy and Political Communication**, Universitat de Barcelona, December 2024

AWARDS AND FELLOWSHIPS

- FI (Joan Oró) Predoctoral Fellowship, Generalitat de Catalunya
- 3rd Place, Best Paper, UPF PhD Workshop Poster Competition (2025)

PROFESSIONAL EXPERIENCE

Data Scientist	2022–2023
<i>Paysafe Group</i>	<i>Irvine, CA</i>
Designed and deployed NLP and machine learning systems for fraud detection and default prediction. Built time-series forecasting models for merchant transaction metrics and regulatory compliance.	
Senior Research Associate / Research Associate	2021–2022
<i>UC Riverside – Center for Economic Forecasting and Development</i>	<i>Los Angeles, CA</i>
Built economic forecasting models and authored policy reports. Conducted spatial analysis and data engineering for government clients at the state, county, and city level.	

TECHNICAL SKILLS AND METHODS

Programming and Tools

Python (primary), R, Stata, SQL, Git/GitHub, AWS (S3, Redshift), Spark, Hadoop, Jupyter, Tableau, ArcGIS

Python Ecosystem

Pandas, NumPy, Scikit-learn, Statsmodels, PyTorch, TensorFlow/Keras, GeoPandas, FAISS, sentence-transformers, Anthropic/OpenAI APIs, spaCy, Beautiful Soup, Selenium, SciPy, Matplotlib, Seaborn

Causal Inference and Econometrics

Instrumental Variables, Shift-Share / Bartik Designs, Two-Way Fixed Effects, Difference-in-Differences, Panel Data, Mediation Analysis, Natural Experiments, Regression Discontinuity

Computational Social Science

LLM-Based Text Classification with Human Validation, Semantic Similarity and Embedding-Based Matching, NLP / Text-as-Data, Prompt Engineering for Research Pipelines, Record Linkage, Occupation

Crosswalks (O*NET, ISCO, ESCO), Spatial Analysis and Geographic Crosswalks, Web Scraping, Survey Design

Data Engineering

PostgreSQL, Multi-Stage Pipeline Architecture, Batch Processing at Scale (14.7M+ records), FAISS Vector Search, Data Deduplication (TF-IDF / exact / near-duplicate), API Cost Management and Caching

Machine Learning and Data Science

Classification, Regression, Deep Learning, Clustering, Time-Series Forecasting, Supervised and Unsupervised Learning, Agent-Based Modeling

AI-Assisted Research Workflows

Daily user of Claude Code for academic research. Integrates agentic coding tools across the full research pipeline: data cleaning, analysis, robustness checks, code auditing, and replication package construction. Experience advising other researchers on adoption of LLM-based research tools.

LANGUAGES

English (native), Spanish (professional working proficiency)
